CERTIFIED MAIL
RETURN RECEIPT REQUESTED

MOD 006 299200

Mr. Omar Tobben
Plant Manager, Sporlan Valve Company
611 East Seventh Street
Washington, Missouri 63090

Dear Mr. Tobben:

LETTER OF WARNING

On August 28, 1984, the Environmental Protection Agency (EPA) performed a compliance evaluation inspection to assure that Sporlan Valve Company was in compliance with the requirements of the Resource Conservation and Recovery Act (RCRA). During the inspection it was noted that hazardous waste manifests used by Sporlan Valve to transport hazardous waste from the facility do not list emergency instructions and special handling procedures pursuant to 10 CSR 25-5.010(4)(c)(10). In addition the manifests did not consistently list the generator's and final facility's EPA identification numbers or the transporter's state identification number pursuant to 10 CSR 25-5.010(4)(c)(2,4, and 5).

Upon review of the Sporlan contingency plan, it was noted that office telephone numbers for emergency coordinators were not included as is required by 40 C.F.R. 265.52(d).

Sporlan Valve is hereby ORDERED to immediately include all the information required in 10 CSR 25-5.010(4) on the manifests of hazardous wastes leaving the facility.

Also, within fifteen (15) days of receipt of this letter Sporlan Valve is required to submit a revised contingency plan which lists the office telephone numbers of the emergency coordinators. This information should be submitted to Norma Sandberg, Environmental Engineer, Air and Waste Compliance, U.S. EPA, 324 East Eleventh, Kansas City, Missouri 64106. Failure to provide this information in the specified time could result in the issuance of a Section 3008 Compliance Order with penalties.

If you have any questions, please call Ms. Sandberg at 816/374-7133.

Sincerely yours,

William A. Sprath
